STARS POLICE CHIEF. Negro Mack Wiley Resents a Blow Inflict on Sister—Fighting and Narrow Escape from Lynching Follower. (By THE ASSOCIATED PRESS—P.M.)

CHICAGO, Nov. 1.—A woman's Halloween prank, early this morning, started trouble which ended in the killing of George A. Airie, chief of police at Morgan Park, by Mack Wiley, a young negro.

Mrs. Sayman, who is a sister of Wiley, and three friends started out for a lark. While they were returning a lumber pile, it is said, the woman was struck by Chief of Police Airie. The negroes went for reinforcements, and upon their return a second meeting with Airie resulted in a fight, in which Airie was stabbed in the neck by Wiley.

The news of the tragedy spread through the suburbs, and soon a crowd of several hundred men and boys marched to the Morgan Park jail, where four of the negroes had been locked up. While the place was surrounded by a mob, clamoring for vengeance, several shotguns being in evidence in the crowd, Wiley and his number of police who had been sent from Harvey and other near-by, a severe fight followed, in which the negroes were severely cut and bruised with sticks and stones, but the officers finally managed to get the prisoners in the carriage and drove off under a shower of bricks, stones and missiles.

The prisoners were taken to the Englewood Jail, where Wiley confessed to having killed Airie.

Flames, Supposedly of Incendiary Origin Extinguished in Twenty Minutes—Property Loss Seven Thousand Dollars—Only One Person Injured—Openings to Fire Escapes Blocked by Bodies of the Dead.

(BY THE ASSOCIATED PRESS—P.M.)

NEW YORK, Nov. 1.—Twenty-one men, each had clutched the one next to him in an endeavor to push him away, in order to get to the fire-escape outside. The features of the men were distorted, some with rage, others with agony, and in two instances the men had gripped each other so hard that blood had been drawn, and had run over their hands.

On the third floor were found the bodies of a woman and her baby. The mother had crawled to the front window and had succeeded in grasping the sill, when she was suffocated. In her arms lay the body of her child.

On the third floor, in an apartment where a Halloween party was being held, John O'Toole, one of the occupants, started to go to the street. He was met by a volume of smoke, as he opened the door. He ran to the fire-escape, followed by all those in the flat, with the exception of his mother, whose charred body was found later lying in the entrance to the apartment. O'Toole and others escaped.

When the flames reached the scene there was a mass of flame bursting through the middle of the roof, while the air was filled with heartrending screams of the women and the curses of the men. Many deaths resulted from the fire, which at times had to use violence in their attempts to dislodge the mass of writhing human beings struggling in vain efforts to reach safety from the burning floor.

The fire had been burning for some minutes before it was discovered. It was the result of a fire in the kitchen, which had spread to the rest of the flat. The fire was extinguished in twenty minutes, but the damage was done.

THE BOWERY is a narrow, board-walk alley thoroughfare, dedicated to cheap dancehalls and sidehalls. The roofs of these flimsy structures were in most instances of tarp paper. Caught by the rapidly-rising fire, in quick succession they ignited, flared at a height, and then collapsed in a great dust of sparks, which were carried on to the next buildings. Two men, Frank Miller, a salesman, and Peter G. Kelly, a bartender, are under arrest, suspected of knowing the cause of the fire. They had been seen passing in and out of the burning building in which the blaze was first seen.

Caught by the rapidly-rising fire, in quick succession they ignited, flared at a height, and then collapsed in a great dust of sparks, which were carried on to the next buildings. Two men, Frank Miller, a salesman, and Peter G. Kelly, a bartender, are under arrest, suspected of knowing the cause of the fire. They had been seen passing in and out of the burning building in which the blaze was first seen.

M. Marie's Kitchen Blaze Gets Out of Bounds While the Restorer of Ancient Manuscript Sleeps—Pope Heads the Relief Party—Firemen from Rome Sent for. Mayor and Minister of Justice Allowed to Enter.

(BY THE ASSOCIATED PRESS—P.M.)

ROME, Nov. 1.—(By Atlantic Cable.)—Fire broke out at 8:30 o'clock tonight at that portion of the Vatican containing the Hall of Inscriptions, where the Pope gives his audience, and which is adjacent to the famous Pinacotheca, or Gallery of Pictures. The alarm caused confusion and excitement in the Vatican. Strenuous efforts were made to control the flames, and the firemen of Rome were called to lend their help. At 11:15 o'clock the fire was under control. No lives were lost. No idea of the damage can yet be obtained. The Pope came to the scene in person, and remained until the arrangements to fight the fire were made.

The fire caused a greater excitement in Rome than any other event since the death of Pope Leo. The safety of the Pope was the first thought in everyone's mind, but this was soon abandoned. When the Pope arrived at the scene, he ordered everyone to assist in extinguishing the fire.

The first indication of the fire was heard from the apartment of M. Marie, who is located above that of Father Eusebio. M. Marie is a celebrated French restorer of ancient manuscripts. He is at present engaged in copying the work, and his first reproductions have been selected for part of the Vatican collection at the St. Louis Exposition. The famous Bramante staircase leads to the part of the Vatican where the fire broke out.

The fire rapidly assumed such proportions that the firemen, who were the first on the scene, gave an immediate general alarm. The whole palace was in a state of confusion. The fire was fought for about ten minutes, and although they brought four engines with them, and were at once ready to begin operations, it took some time to find the best place to get sufficient water supply with which to fight the fire. In the meantime, the flames had begun to break out of the windows of M. Marie's apartment, and were destroying the room.

The flames lit up the entire district, and gave the impression that nothing could stop the fire. When the fire engines began working three rooms were already entirely destroyed by the flames, which had reached the other apartments. The Pope with a large force of firemen, and a large number of police, arrived at the scene. The fire was fought for about ten minutes, and although they brought four engines with them, and were at once ready to begin operations, it took some time to find the best place to get sufficient water supply with which to fight the fire. BILBAO STRIKE ENDS.

Miners Gain Their Points Against the Iron Companies With the Exception of the Right to Organize, Which is Refused.

(BY THE ASSOCIATED PRESS—P.M.)

BILBAO, Nov. 1.—(By Atlantic Cable.)—Never in the history of Bilbao has there been a strike of such consequences to the iron workers of Spain as that which terminated today. During the fighting with the troops, four were killed and twenty-one wounded.

The miners will no longer be compelled to live cooped up in the barracks provided by the mining companies, and they will no longer be forced to purchase food from the company stores, which has been often declared unjust. Instead of being paid by the month, they will hereafter be paid every week. They have been refused, however, the right to organize.

"SLEEPING SICKNESS" HAS STRANGE EFFECTS.

(BY DIRECT WIRE TO THE TIMES.)

PARIS, Nov. 1.—(Exclusive Dispatch.)—Three Congo negroes who were brought to Paris are undergoing treatment for the mysterious "sleeping sickness." One, who is in the first stage, does not present any special symptoms. He eats well, and does not suffer. If anything, he sleeps too well. The second, who is in an advanced stage, is wide awake at the moment, and then in a few moments relapses into a torpor from which he cannot be awakened. He does nothing but eat and sleep. The third, who is in the last stage, has a tumor on the back of his neck. After an injection of more than twice the ordinary

Elizah Second Preaches for Two Hours at One Time—Attacks Infant Baptism, and Later the Masonic Order.

NEW YORK, Nov. 1.—The closing day of the visitation of Dowie's "Restoration Host" to this city was celebrated today with almost continuous services at Madison Square Garden. 35 men and 41 women and girls receiving the trine baptism, about 200 receiving the right hand of fellowship into the Christian Catholic Church of Zion, and something like 400 persons receiving the holy sacrament. The services were but sparsely attended. Dr. Dowie preached a sermon of nearly two hours' duration. In the course of which he denounced infant baptism as a sham, and declared that being sprinkled did not constitute baptism, for which immersions were necessary.

At the afternoon meeting Dowie spoke on "The coming of the lawless one," the "chastisement of the church," and the "restoration of the church." He declared to be convinced that he had things to say to the church, and that he had things to say to the church.

New York State Interested in Its Referendum on the Barge-Canal Project—Close Fight in Maryland—Republicans Confident in Rhode Island.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Nov. 1.—(Exclusive Dispatch.)—Elections will be held in twelve States Tuesday. Full State tickets are to be voted for in Massachusetts, Ohio, Maryland, Rhode Island, Iowa, Kentucky, and Mississippi. Pennsylvania, Nebraska, and Colorado are to vote on the barge canal project. Justices of the Supreme Court are to be chosen in New York. The whole State will vote for a judge of the Court of Appeals, and the election of the State Senator in the Twenty-second District. The Court of Appeals judge being the only State office to be filled in New York.

The first meeting of the Congress of the Propaganda since fall at the Vatican will take place Monday, November 5, and will be full of interest to the Catholic church in the United States. Many bishops are to be nominated to vacant sees, among them the Archbishop of Milwaukee and St. Louis and candidates for Boston and New York. Several new dioceses are to be created and their titulars appointed.

The most important American matter to come before the propaganda is the solution of the difficulties of the church in Denver, where Bishop Mann has sustained a loss of more than \$100,000 of the Port of the Colorado. The bad investments made by Father Callahan, the rector. It is not the first time that the Propaganda had to intervene in the financial affairs of the Denver diocese, as the late Bishop Mann's recent loss is a large legacy of debt.

DICK'S PREDICTION FOR HANNA. (BY THE ASSOCIATED PRESS—P.M.)

COLUMBUS (O.) Nov. 1.—Chairman Dick of the Republican State Executive Committee, tonight issued the following statement: "Estimating upon careful reports received from the country outside of Ohio, the entire Republican State Executive Committee feels justified in the prediction that the returns from the election will show a total vote for all parties aggregating 500,000; that Col. Herrick's plurality exceeded, rather than fell below, 100,000; and that the Legislature will be Republican in both branches. The Democratic ticket in Mississippi has no opposition."

CHICAGO A FAVORED CITY.

CAN HAVE BOTH CONVENTIONS. (BY THE ASSOCIATED PRESS—P.M.)

CHICAGO, Nov. 1.—(Exclusive Dispatch.)—The Hamilton Club of Chicago will send a committee to wait upon the Republican National Committee, with the request that the next national Republican convention be held in this city. The National Committee will meet in Washington December 4, and the Hamilton Club members have received assurances from the leading members of the committee that Chicago is a desirable public place if a bid is made for it.

Leading politicians in this city say Chicago can have both the national and the State conventions. The members of both national committees are predisposed to Chicago, and the Hamilton Club is making active efforts to secure one or the other of the conventions. AT THE CITY'S GATES

ANGELENO HEIGHTS.

A pretty home wedding took place Thursday evening at the home of G. W. Bailey, No. 121 South Beaudry avenue. The contracting parties were Miss Emma R. Steinmiller of Rochester, N. Y., and Leonard B. Bailey of this city. The ceremony was performed by Rev. R. P. Coulter of the Broadway Church of Christ. The wedding march was played by Mrs. H. G. Cole, sister of the groom, and the ceremony was witnessed only by relatives. Immediately after the wedding an elaborate supper was served. Mr. and Mrs. Bailey have gone to Catalina for a brief stay, and will make their home in Los Angeles. This wedding took place on the twentieth anniversary of the wedding of Mr. and Mrs. G. W. Bailey, and the occasion was made one of double rejoicing.

E. S. Ward and family are newcomers from Topeka, Kan., and have purchased for their home the new residence at No. 1241 Iowa street. H. P. Stephenson of No. 1283 Bellevue avenue has been the guest of the past two weeks at Santa Barbara. Ulrich Knott of No. 1603 Bellevue avenue has been the guest of the past week as a delegate from the Bellevue Avenue Methodist Episcopal Church, South, to their district conference. Guests of Mr. and Mrs. Ulrich Knott of No. 1603 Bellevue avenue the past week were Curtis E. Albro and Mrs. J. P. Bluff, Mrs. Dr. H. A. Newell of No. 1275 Bellevue avenue is spending a few days at San Diego. Mrs. C. E. Wilder entertained a company of young people last Friday evening at her home, No. 356 Brent street, in honor of the fifteenth birthday anniversary of her son, Ben Wilder. A Halloween party was given last Friday evening by Miss Helen Estes at her home, No. 381 Beaudry avenue. The marriage of Miss Grace Davis of San Francisco and Edgar Bailey of No. 1603 Bellevue avenue took place in San Francisco Tuesday. They will reside in China. Henry A. Cogswell is building three 1100 cottages at No. 512, 516 and 520 Centennial street.

EAST LOS ANGELES.

The newly-chartered East Side bank, to be known as the Federal Bank of Los Angeles, has selected as officers: W. R. Clark, president; J. R. Sisson, vice-president; C. A. Nell, secretary; E. M. Morrison, treasurer; F. F. Sisson, cashier. These persons will constitute the present board of directors. Nearly all the stockholders are East Side men.

Curtis C. Colyer has purchased from Mrs. Mary Cahill Knorr a tract 160x150 feet at the corner of Avenue 19 and East Main street, paying therefor \$3500.

Several 100-foot lots fronting on Douglas street, and the Los Angeles River and Avenue 19 have been purchased by John A. Toakum. Peter Stone has sold his lot on Main street, between Douglas and the river, to parties who will erect a rooming-house thereon.

The opening of Darwin and Mosart streets into East Main street is asked in a petition that has been circulated here the past week.

Work is to begin about December 1 on the immense new malt house for the East Side Brewery.

The eighteenth birthday anniversary of Edwin L. Adams was observed by a party last Monday evening at the home of his parents, Mr. and Mrs. G. E. Adams, No. 387 Pasadena.

Rev. M. McCallister, pastor of the Church of the Sacred Heart, is having built two pretty cottages on the corner of Griffin avenue, opposite the Sacred Heart school of the Dominican Sisters.

Narrow Brothers, who have been engaged in extensive building operations on the East Side since the revival in building interests, will establish a 110,000 planing mill at the corner of Mission road and Hancock street.

Within a few days the school facilities on the East Side will be increased by the addition of twelve new rooms. The four-room addition at the Griffin avenue school is practically completed, and the eight rooms at the Chestnut street school will be ready for use within a few days.

Dr. J. B. Bell of No. 2823 Downey avenue has returned from a visit to his mining properties in Ventura and Kern counties.

SHUFFLEBARGER'S MOVEMENTS. ALL KEPT IN DARK.

Open Question Whether Criminal Complaint Will be Lodged Against Missing Life Insurance Agent—Family Left in Straitened Circumstances, 'Tis Said.

From the moment that he disguised himself at the Long Beach bath-house Friday afternoon and left the dressing-room where he had made the change, J. F. Shufflebarger, the missing life insurance agent, has kept his movements thoroughly concealed.

Had he not carefully left the clipped fragments of his mustache in the dressing-room with a paper showing the print of a shoe and another showing the print of a new pair of shoes, it is likely that he would still be thought to have been drowned.

Those little mustache hairs have spoken volume of an evident attempt to throw dust over his trail.

It was thought that Shufflebarger might have gone to San Pedro intending to board on some vessel sailing from that port. By a singular coincidence the Pacific Coast Steamship Company's vessel, the "Albatross," arrived at sail from the harbor port at

Long Beach, who Unearthed Evidence Disclosing Shufflebarger's Duplicitv.

5:30 o'clock Friday evening. That would have given Shufflebarger just about time to make the boat, had he planned beforehand to go away by that route. As it happened the boat was not scheduled to leave until after her scheduled time, and she did not sail for the north till Saturday morning.

The missing husband and father, it is understood, has left his family in straitened circumstances. For several months he has been boarding with the Shuffebargers, left the place yesterday afternoon.

BISHOP WILL PLACE THE CORNER-STONE.

BISHOP H. C. MORRISON of the Methodist Episcopal Church, South, will lay the corner-stone of the Homer Toberman Deaconess Home this afternoon at 2 o'clock. The new home is located at the southwest corner of Custer and Bellevue avenues, and, although the corner-stone is just being placed, the building in reality is nearing completion, and within a few weeks will be used for the work of the deaconesses. It is hoped eventually to extend this home and to make of it a hospital.

This institution is a gift to the Home Mission Society of the Methodist Episcopal Church, South, by Ex-Mayor and Mrs. J. R. Toberman, as a memorial to their son, Homer J. Toberman, who died June 4, 1901, at the age of 39 years.

The home has been placed in the care of a board of trustees composed of J. O. Lott, L. J. Mathews, E. D. Elliott, M. W. Wick and Ulrich Knott. The programme for the service this afternoon is as follows: Invocation, Dr. C. P. Bell; Fraternal Welcome, Dr. Hugh K. Walker, and Dr. John L. Pittner; prayer, Dr. C. Thawer; reading, Rev. J. F. G. Finley; address, Pres.

J. A. Fosbury, laying of corner-stone and address by Bishop Morrison; doxology and benediction.

SUICIDE'S PAINS TO CONCEAL IDENTITY.

WITH two boys watching the deed of an unknown man fired a bullet into his right temple on East First street at 5:40 o'clock yesterday evening and fell to the sidewalk next to the fence of the Ganahl Lumber Company's yard near Figueroa street. The wound was a 45-caliber revolver, and the bullet tore a hole clear through the suicide's head, emerging from the left temple just beneath the hat brim.

The body was removed to Pierce Bros. morgue, where the Coroner will probably hold an inquest today.

There were no papers by which the suicide could be identified; in fact, it seemed to have occurred carefully against such a contingency as the mark of the firm where he got his clothes was torn out of the collar of a two-step or waist.

He was a well-built man, nearly six feet in height, was about 45 years old, and wore a long, dark-brown mustache. He had on a rough sort of black very respectable in appearance, with absolutely nothing in the pockets, and a plain gold ring encircled one of his fingers. His hands were those of a man not used to manual labor.

BONANZA IN CITY'S WATER.

Municipal System Paying an Enormous Profit.

One of the Handsomest Investments a City Ever Made.

At Present Rate Works Will Pay for Themselves in Three Years.

The municipal water department is the biggest bonanza in Los Angeles. Since the city's acquisition of the plant water rates have been reduced 10 per cent, and meter rates for water much more than that. But today the monthly income is about \$25,000, or \$300,000 a year. This is 25 per cent, on the investment. In other words, the water plant would pay for itself in three years out of the gross income.

It costs about \$2000 a month to run the office and collecting department. Perhaps \$1000 a month is spent in repairing damage to existing pipes, mainly on account of electrolysis near the electric power houses.

This leaves a net income of \$18,000. In a few months more the sum will amount to \$20,000, or 30 per cent. interest a year, on the original investment.

But the city, instead of placing the money in the vaults, is spending it for improvements in a system that is badly run down when it passed into municipal control. Improvements amounting to nearly \$2,000,000 are contemplated by the Water Commission before the water system will be considered complete. About \$700,000 has been expended already in ditches, pipes, tunnels, reservoirs, filtration galleries, engines and machinery.

FINE THING FOR CITY.
New mains are being extended into sections not formerly supplied. Improvements immediately precede or follow the extension of the water pipes. If the city had continued the latter legal warfare for the possession of the plant at the arbitrator's figure of \$1,125,000 (exclusive of the Crystal Springs property) growth would have been retarded, more than \$500,000 a year would have gone into the pockets of the water stockholders instead of into the City Treasury.

Water service would have been very inferior, insurance rates would have advanced, no water could have been obtained in such high buildings as are now under construction, and in a hundred ways the city would have been the loser.

While the price paid for the plant may have exceeded its intrinsic worth, or follow the extension of the water pipes. If the city had continued the latter legal warfare for the possession of the plant at the arbitrator's figure of \$1,125,000 (exclusive of the Crystal Springs property) growth would have been retarded, more than \$500,000 a year would have gone into the pockets of the water stockholders instead of into the City Treasury.

Most important of all the municipal ownership of the water plant has guaranteed to the city a pure supply. "When the infiltration gallery at the headworks has been completed and the underground gallery at the Buena Vista-street station is well, when the reservoirs are roofed and the cement conduits completed, Los Angeles City will have the purest water supply in the world," declared Health Officer Powers yesterday.

Among the multitudinous duties of the Health Officer is the examination of the city's water supply. Some idea of the comparative purity of the water now and formerly may be gained from the fact that the water from Crystal Springs and from the infiltration beds shows about 40 germs to the cubic centimeter, while the water from the city high as 11,000 and 15,000 germs to the cubic centimeter.

Reference was recently made to the construction of the main supply conduit over seven miles in length from the headworks to the high-gravity reservoir in the Buena Vista Canon. It will cost \$1,000,000 to build this conduit, which is practically five feet in diameter. By replacing the old open ditch of the public days the water will be delivered in the city very much more nearly pure and a considerable loss from seepage will be checked.

The high-gravity reservoir will hold 1,000,000 gallons of water. It is twenty feet deep in places. It will be constructed to prevent the growth of algae. The big gallery 11 feet beneath the ground that is being dug out across 2000 feet from the main pumping station to yield 7,000,000 gallons a day. It has been extended 161 feet from the shaft when completed, more than 2000 feet long. It will cost \$100,000 and the water developed at market rates will be worth about \$2,000,000, it is stated. The gallery now yields several million gallons daily.

LOWER WATER RATES.
It will be three years yet before the city can begin to materially lower the water rates. That time will be required to complete the extensive improvements now contemplated. It is thought rates can be reduced to a figure that will just cover running expenses and ordinary extensions.

Of course the interest and sinking fund on the \$2,000,000 bond issue is being paid from the water revenue. Not a cent has been added to tax rates on account of the bonds. This month \$135,000 has been paid out to bondholders. It will be forty years before the bonds are all paid off, but the amount of interest due decreases every year.

At the end of five years the expenses of the water department will probably be not more than \$12,000 a month. Then the bottom will drop out of the city water rates. The average cost of a fifty-foot lot now pays about \$1.35 a month and the average two-story house about \$1.35. A three-fourths section in these figures will give Los Angeles about the cheapest water rates in the United States, and already the

meter rates are the cheapest west of the Rocky Mountains, with one or two unimportant exceptions. Had to say, however, the purging, rippling, gurgling stream known as the Los Angeles River, will cease to be in summer time. The underground development of water will stop the surface flow entirely except in periods of stormy weather. Consequently the farmers along the river are planning to contest the right of the city to take all the water, and lawsuits are threatened over riparian rights. Because it affords the city nearly three miles of watershed Griffith Park is an important asset of the city. Its value is far greater because of the river frontage than on account of the high hills and sylvan cañons.

A PASTOR'S DEPARTURE.

Dr. C. D. Booth, Minister of the Tabernacle Baptist Church, Goes to Tuskegee—Farwell Services.

Rev. C. D. Booth, pastor of the Tabernacle Baptist Church, preached his farewell sermon yesterday morning, prior to his departure for Tuskegee, Ala., where he will lecture in the Booker T. Washington Industrial School.

Dr. Booth was engaged in the educational work there for several years before coming to Los Angeles. On coming here he assumed the pastorate of the Tabernacle Church, and has greatly strengthened that organization, as well as doing much to advance the general interests of his race in this city.

In yesterday's sermon the doctor made a touching appeal for good-fellowship, Christian spirit, and a high standard of living at the close of the sermon the ladies of the congregation presented to their departing pastor, for his wife, a beautiful silver cake basket, and an autograph letter to be delivered to her. Mrs. H. H. Williams, who made the presentation, in behalf of the ladies of the church, told of the sorrow with which they parted from their pastor, and the fear that he might not return to them.

In his comparatively short stay in Los Angeles Dr. Booth has gathered a congregation of some of the best representatives of the colored race in this city. He has shown himself to be a man of strength of character and intellectuality, and has worked earnestly for the uplifting of the colored race. During his absence the Tabernacle Church will be in charge of Rev. Mr. Whitlock.

So He Ought.
"What's the charge?" the justice asked the officer who had brought in the object of the next item on the docket.

"Vagrancy, yer honor," the justice asked the prisoner.

"Temporarily," was the reply. "When did you get a job?" "Well about a year ago I had a drug store, but—" "And you couldn't make a living with a drug store?" exclaimed the justice excitedly, leaving over the bar.

"Ninety days! A man who can't make a living with a drug store ought to get a job permanently." (Bal-)

Fig Brand Evaporated Cream

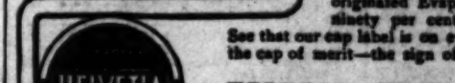

Purer Than Cow's Milk

It is not a compound preparation, but simply the best cow's milk, evaporated in a cream-like consistency and scientifically sterilized, which frees it from all germs and leaves it absolutely pure. When you buy your groceries by sack and

Add It To Your List

For richness and flavor it has no equal. It is pleasing in appearance, of heavy consistency and shockingly uniform. We originated Evaporated Cream and make ninety per cent of the world's supply. See that our label is on every can you buy. 'Tis the cap of merit—the sign of honest goods.
